Cooler Remote Panel

Manufacturer's delight

- ✓ Screw based mounting arrangement
- ✓ 4 wire connection (Phase, Neutral, Fan & Pump)
- ✓ Mechanical Dimension – (80 x 45 x 48) mm
- ✓ Can be installed in cooler rating up to 1500 Watt

AGDP Enterprises is a strong pioneer involved in providing embedded solutions & reliable products to the customers, employing a dedicated R&D shell for customized engineering.

Its latest introduction is Cooler Remote Panel (CRP) that combine sophisticated design with state-of-the-art technology. Its contemporary styling provides precise, dependable control of Fan speed & Humidity level and complements all home decors, while offering the potential for significant energy savings.

CRP is Fan & pump management panel with Remote Control facility. Above shown is front control panel for Air Coolers.

Specification & Salient Features

- Suitable for 2 HP/ 1.5 KW of Cooler Fan
- Suitable for 1 HP/ 750 Watt of water pump
- Stand-alone as well as remote operation
- 5 step fan speed
- Humidity Control vide micro Controller based water pump operation
- Low power consumption of ½ Watt (0.5 Watt)
- Ultra Compact & highly reliable
- Aesthetic & elegant look
- Remote operation up-to 50 ft.
- Compatible to all make & rating of Coolers.
- Fully secure (No touch operation)
- Integrated with highly reliable industrial grade components

Secure & Affordable Luxury

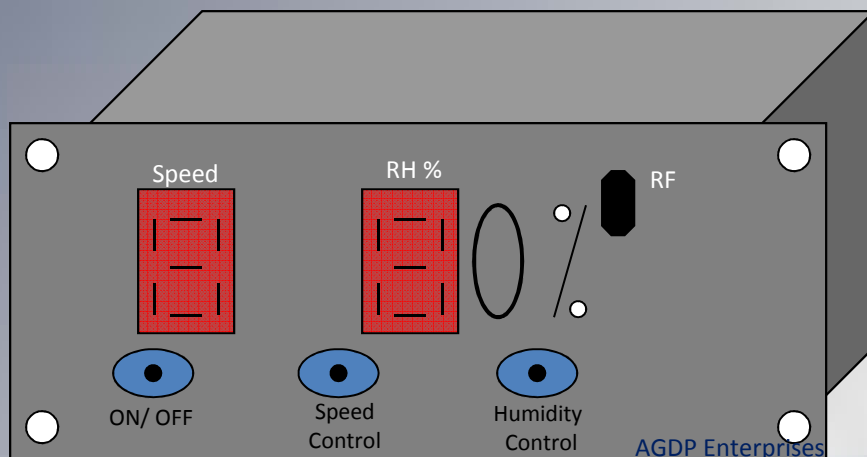

- ✓ Switch ON/ OFF your cooler remotely
- ✓ Control speed of cooler Fan as per your comfortability
- ✓ Control Humidity/ Moisture level in your room as per season & comfort
- ✓ Ensure that none of your loved one ever touches cooler
- ✓ Eliminate the chance of all domestic electric accidents happening during cooler controlling/ operation

Solution is **Cooler Remote Panel (CRP)**

A must requirement for your household application, as it eliminates all domestic electric accidents. Now your baby, wife, daughter, and mother are safe, at least from electricity. Very Useful for old age citizens, handicapped peoples & Hospitals.
